INTRODUCTORY NOTE

This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 about Energy & Technology, Corp. (the “Company”) and our subsidiary, Technical Industries, Inc. (TII), and Energy Pipe, LLC (a variable interest entity), that are subject to risks and uncertainties. Forward-looking statements include information concerning future financial performance, business strategy, projected plans and objectives. Statements preceded by, followed by or that otherwise include the words “anticipates,” “believes,” “estimates,” “expects,” “intends,” “plans,” “may increase,” “may fluctuate” and similar expressions of future or conditional verbs such as “will,” “should,” “would,” and “could” are generally forward-looking in nature and not historical facts. Actual results may differ materially from those projected, implied, anticipated or expected in the forward-looking statements. Readers of this quarterly report should not rely solely on the forward-looking statements and should consider all uncertainties and risks throughout this report. The statements are representative only as of the date they are made. The Company, TII, and Energy Pipe, LLC (sometimes referred to herein on a consolidated basis as the Company, we, us, or similar phrasing) undertakes no obligation to update any forward-looking statement.

These forward-looking statements, implicitly and explicitly, include the assumptions underlying the statements and other information with respect to the Company's beliefs, plans, objectives, goals, expectations, anticipations, estimates, financial condition, results of operations, future performance and business, including management's expectations and estimates with respect to revenues, expenses, return on equity, return on assets, efficiency ratio, asset quality and other financial data and capital and performance ratios.

Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, these statements involve risks and uncertainties that are subject to change based on various important factors, some of which are beyond the control of the Company. The following factors, among others, could cause the Company's results or financial performance to differ materially from its goals, plans, objectives, intentions, expectations and other forward-looking statements:

- . general economic and industry conditions;
- . our capital requirements and dependence on the sale of our equity securities;
- . the liquidity of the Company's common stock will be affected by the lack of a trading market;
- . industry competition;
- . shortages in availability of qualified personnel;
- . legal and financial implications of unexpected catastrophic events;
- . regulatory or legislative changes effecting the industries we serve; and
- . reliance on, and the ability to attract, key personnel.

For a discussion of these and other risks and uncertainties that could cause actual results to differ from those contained in the forward-looking statements, see “Risk Factors” in the Company's S-1 Report filed with the SEC, which is available on the SEC's website at www.sec.gov. All forward-looking statements are qualified in their entirety by this cautionary statement, and the Company undertakes no obligation to revise or update this Quarterly Report on Form 10-Q to reflect events or circumstances after the date hereof. New factors emerge from time to time, and it is not possible for us to predict which factors, if any, will arise. In addition, the Company cannot assess the impact of each factor on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

ENERGY & TECHNOLOGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

Note 1. Organization

Technical Industries & Energy, Corp. (the Company) (TIE) was formed November 29, 2006 under the laws of the State of Delaware in order to acquire and to take over the assets and business of Technical Industries, Inc. (TII) a Louisiana Corporation established on May 12, 1971. On that date, the Company issued 125,000,000 shares of common stock to American Interest, LLC, in exchange for founder services rendered. The fair value of these services was considered immaterial, and no amounts were recognized in the financial statements. At the time the shares were issued to American Interest, LLC, TIE had no assets, operations, or cash flows. As such, the stock had no value at the time TIE was established. The par value was arbitrarily established in order to comply with the State of Delaware laws. In order to reflect the par value of the shares issued, the Company recognized a discount on capital stock as a contra-equity account within the equity section of the consolidated balance sheets. On January 3, 2007, the Company entered into a Stock Exchange Agreement and Share Exchange (the Agreement) whereby the sole shareholder of TII exchanged all of the outstanding shares of the TII to the Company in exchange for 50,000,000 shares of Company stock. Accordingly, TII became a wholly-owned subsidiary of the Company. The assets acquired and liabilities assumed were recorded at the carrying value to TII since TII and the Company were under common control prior to the acquisition.

TII specializes in the non-destructive testing of vessels, oilfield pipe, tools and equipment, including ultrasonic testing, utilizing the latest technologies. These technologies enable TII to (i) provide detailed information to customers regarding each pipe tested, and (ii) reach energy reserves present technology cannot reach without extra cost to the oil and gas companies. Because of the intense scrutiny applied to each section of pipe, TII is able to generate data which allows the pipe to be used in the most extreme conditions, and has been proven especially useful in deep water drilling operations in the Gulf of Mexico.

On August 29, 2008, the Company effected a name change from Technical Industries & Energy Corp. to Energy & Technology, Corp. to better reflect the nature of the Company's business.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation and Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Technical Industries, Inc., and the accounts of Energy Pipe, LLC (a variable interest entity). All significant intercompany balances and transactions have been eliminated.

The consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of financial information for the interim periods presented. These adjustments are of a normal recurring nature and include appropriate estimated provisions.

Basis of Accounting

Assets, liabilities, revenues and expenses are recognized on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the financial statements. Accordingly, actual results could differ from those estimates due to information that becomes available subsequent to the issuance of the financial statements or for other reasons.

Revenue Recognition

Revenue for inspection services is recognized upon completion of the services rendered. Revenue for the sales of pipe is recognized when: a) pipe is delivered and the customer takes ownership and assumes the risks of loss, b) collection of the relevant receivable is probable, c) persuasive evidence of an arrangement exists, and d) the sales price is fixed or determinable.

Trade Receivables

Trade accounts receivable are carried at their estimated collectible amounts. Trade credit is generally extended on a short-term basis; thus receivables do not bear interest, although a finance charge may be applied to amounts past due. Trade accounts receivable are periodically evaluated for collectibility based on past credit history with customers and their current financial

condition. Provisions for uncollectible amounts are determined based on management's estimate of collectability.

ENERGY & TECHNOLOGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

Note 2. Summary of Significant Accounting Policies (Continued)

Inventory

Inventory is stated at the lower of cost determined by the specific identification method or market. At June 30, 2010 and at December 31, 2009, inventory consisted of drilling and casing pipe available for sale.

Property and Equipment

Property and equipment are stated at cost. Expenditures for property and equipment and items that substantially increase the useful lives of existing assets are capitalized at cost and depreciated. Routine expenditures for repairs and maintenance are expensed as incurred. The cost and related accumulated depreciation of property and equipment disposed of are eliminated from the accounts, and any resulting gain or loss is recognized.

Depreciation is provided utilizing the straight-line method over the estimated useful lives of the assets capitalized.

Valuation of Long-Lived Assets

In the event facts and circumstances indicate that carrying amounts of long-lived assets may be impaired, the Company evaluates the recoverability of its long-lived assets using the estimated future undiscounted cash flows associated with the asset compared to the asset's carrying amount to determine if a write-down is required, pursuant to the provisions of Financial Accounting Standards Board (FASB) ASC 360-10-35. Any impairment loss is measured as the difference between the carrying amount and the fair value of the impaired asset.

Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of temporary cash investments and trade receivables. For the six months ended June 30, 2010, three customers made up approximately 47% of the Company's revenues, and two customers made up approximately 66% of the Company's receivable balance at June 30, 2010. For the six months ended June 30, 2009, four customers made up approximately 55% of the Company's revenues, and approximately 52% of the Company's receivable balance at June 30, 2009.

The Company maintains cash balances at several financial institutions, and periodically maintains cash in bank accounts in excess of insured limits. The Company has not experienced any losses and does not believe that significant credit risk exists as a result of this practice.

Advertising

The Company charges the costs of advertising to expense as incurred.

Cash and Cash Equivalents

For purposes of the consolidated statement of cash flows, the Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Income Taxes

The Company recognizes income taxes in accordance with FASB ASC 740, "Income Taxes" (formerly Statement of Financial Accounting Standards (SFAS) No. 109, *Accounting for Income Taxes*). ASC 740 uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred income taxes are recognized for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to the difference between financial statement carrying amounts and the tax basis of existing assets and liabilities. Deferred taxes are also recognized for operating losses and tax credits that are available to offset future income taxes.

When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any.

Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50% likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above would be reflected as a liability for unrecognized tax benefits in the consolidated balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Interest and penalties

associated with unrecognized tax benefits would be classified as additional income taxes in the statement of operations.

ENERGY & TECHNOLOGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

In June 2009, the FASB issued Accounting Standards Update (ASU) No. 2009-01 (formerly FAS No. 168), *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. The Accounting Standards Codification (ASC) is the single source of authoritative non governmental U.S. generally accepted accounting principles (GAAP). Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification does not change current GAAP, but is intended to simplify user access to all authoritative GAAP by providing all the authoritative literature related to a particular topic in one place. All existing accounting standard documents are superseded and all other accounting literature not included in the Codification is considered non-authoritative. The Codification is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The adoption of this ASU did not have a material impact on the results of operations or financial position of the Company as it only required changes to GAAP references in our financial statements

ASC 320-10 (formerly Staff Position (FSP) No. 115-2 and No. 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*), amends existing guidance for determining whether impairment is other-than-temporary (OTTI) for debt securities. The ASC requires an entity to assess whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of these criteria is met, the entire difference between amortized cost and fair value is recognized in earnings. For securities that do not meet the aforementioned criteria, the amount of impairment recognized in earnings is limited to the amount related to credit losses, while impairment related to other factors is recognized in other comprehensive income. Additionally, the ASC expands and increases the frequency of existing disclosures about other-than-temporary impairments for debt and equity securities. ASC 320-10 was effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The adoption of the ASC did not have a material impact on the results of operations or financial position of the Company because the Company did not hold any other-than-temporary impaired debt securities.

ASC 820-10 (formerly FSP No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*), emphasizes that even if there has been a significant decrease in the volume and level of activity, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants. ASC 820-10 provides a number of factors to consider when evaluating whether there has been a significant decrease in the volume and level of activity for an asset or liability in relation to normal market activity. In addition, when transactions or quoted prices are not considered orderly, adjustments to those prices based on the weight of available information may be needed to determine the appropriate fair value. The ASC also requires increased disclosures. ASC 820-10 was effective for interim and annual reporting periods ending after June 15, 2009, and was applied prospectively. The adoption of ASC 820-10 did not have a material impact on the results of operations or financial position of the Company.

ASC 825-10 (formerly FSP No. 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*), requires disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies that were previously only required in annual financial statements. ASC 825-10 is effective for interim reporting periods ending after June 15, 2009. The adoption of ASC 825-10 did not have a material impact on the results of operations or financial position of the Company.

On January 1, 2009, the Company adopted new guidance that related to accounting for non-controlling interests in consolidated financial statements. The new accounting guidance states for entities to provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners separately within the consolidated statement of financial condition within equity, but separate from the parent's equity and separately on the face of the consolidated statement of operations. Further, the new guidance states that changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary should be accounted for consistently and when a subsidiary is deconsolidated, any retained non-controlling equity investment in the former subsidiary should be initially measured at fair value. The adoption of this guidance had no impact on the Company.

ENERGY & TECHNOLOGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements (Continued)

In June 2008, the FASB issued guidance which addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, included in the earnings allocation in computing earnings per common share (EPS) under the two-class method. Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of EPS pursuant to the two-class method. This guidance was effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those years. All prior period EPS data presented, were to be adjusted retrospectively (including interim financial statements, summaries of earnings, and selected financial data) to conform to the provisions of this guidance. Since the Company's unvested restricted stock awards do not contain non-forfeitable rights to dividends, they are not included under the scope of this pronouncement, and therefore, the adoption of this guidance had no impact on the Company.

ASC 855-10 (formerly FAS No. 165, *Subsequent Events*), establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, ASC 855-10 sets forth:

- the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements;
- the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and
- the disclosures that an entity should make about events or transactions that occurred after the balance sheet date.

The Company has adopted the new guidance that was effective for financial statements issued for interim and annual periods ending after June 15, 2009.

FAS No. 166, *Accounting for Transfers of Financial Assets—an amendment of FASB Statement No. 140*, removes the concept of a qualifying special-purpose entity from Statement 140 and removes the exception from applying FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, to qualifying special-purpose entities. The objective in issuing this Statement is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. This Statement must be applied as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. The impact of adoption is not expected to be material.

FAS No. 167, *Amendments to FASB Interpretation No. 46(R)*, seeks to improve financial reporting by enterprises involved with variable interest entities. The statement addresses (1) the effects on certain provisions of FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, as a result of the elimination of the qualifying special-purpose entity concept in FASB Statement No. 166, *Accounting for Transfers of Financial Assets*, and (2) constituent concerns about the application of certain key provisions of Interpretation 46(R), including those in which the accounting and disclosures under the Interpretation do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. This Statement is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. The impact of adoption is not expected to be material.

Note 3. Patent

On September 4, 2007, the Company's chief executive officer was awarded a patent from the United States Patent and Trademark Office pertaining to his development of specialized testing procedures for drilling pipe utilized by oil-exploration companies.

The Company's costs associated with its development of these testing procedures and application for patent have been capitalized and recognized as an asset in the Company's balance sheet, and is being amortized over 20 years.

ENERGY & TECHNOLOGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

Note 4. Commitments

The Company leases office premises, operating facilities, and equipment under several operating leases expiring in various years through 2030. The Company also leases land for operating purposes on a month to month basis.

Note 5. Major Customers

For the six months ended June 30, 2010, the Company had three customers which generated revenues in excess of 10% of the Company's total revenues. Revenues for these three customers were approximately 47% of total revenues, and the total balance due from these three customers at June 30, 2010 was \$200,668.

Note 6. Related Party Transactions

Included in due to affiliates is \$1,393,797 and \$1,340,190 at June 30, 2010 and December 31, 2009, respectively, in acquisition debts paid by affiliates upon the acquisition of the Company in 1999. The affiliates maintain a lien on the Company's accounts receivable and equipment to secure this loan. The amounts due to the affiliates have no set terms of repayment and bear interest at 8.00%. Interest expense associated with this obligation totaled \$17,869 and \$15,404 for the six month periods ended June 30, 2010 and 2009, respectively.

Note 7. Earnings per Share

The weighted average common shares outstanding amounted to 53,668,000 and 53,634,453 for the three months ended and the six months ended June 30, 2010, and 175,100,000 for the three months ended and six months ended June 30, 2009, respectively.

Note 8. Fair Value Disclosures

The following methods and assumptions were used by the Company in estimating fair values for financial instruments:

Cash and cash equivalents: The carrying amount reported in the balance sheet approximates fair value.

Notes Payable: The fair value of notes payable approximates the carrying amount reported in the balance sheet.

Due to Affiliates: The carrying amount approximates fair values.

While these estimates of fair value are based on management's judgment of appropriate factors, there is no assurance that if the Company had disposed of such items at June 30, 2010 or December 31, 2009, the estimated fair values would have been achieved. Market values may differ depending on various circumstances not taken into consideration in this methodology. The estimated fair values at June 30, 2010 and December 31, 2009, should not necessarily be considered to apply at subsequent dates.

In addition, other assets and liabilities that are not defined as financial instruments are not included in the following disclosures, such as property and equipment. The estimated fair values of the Company's financial instruments are as follows:

	June 30, 2010		December 31, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Cash and cash equivalents	<u>\$ 1,394,476</u>	<u>\$ 1,394,476</u>	<u>\$ 1,657,330</u>	<u>\$ 1,657,330</u>
Financial liabilities:				
Notes Payable	\$ 839,972	\$ 839,972	\$ 687,004	\$ 687,004
Due to Affiliates	<u>1,794,690</u>	<u>1,794,690</u>	<u>1,765,692</u>	<u>1,765,692</u>
	<u>\$ 2,634,662</u>	<u>\$ 2,634,662</u>	<u>\$ 2,452,696</u>	<u>\$ 2,452,696</u>

ENERGY & TECHNOLOGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

Note 9. Subsequent Events

In accordance with the subsequent events topic of the FASB ASC, Topic No. 855, "*Subsequent Events*", the Company evaluates events and transactions that occur after the balance sheet date for potential recognition in the financial statements. The effect of all subsequent events that provide additional evidence of conditions that existed at the balance sheet date are recognized in the financial statements as of June 30, 2010. In preparing these financial statements, the Company evaluated the events and transactions through the date these financial statements were issued.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

Headquartered in Lafayette, Louisiana, with production facilities in Houston, Texas and Abbeville, Louisiana, Energy & Technology, Corp. provides non-destructive testing (NDT) services, OCTG and oilfield pipe sales, service and storage, and rig and equipment sales. Originally founded on May 11, 1971 as an inspection company, Energy & Technology, Corp. currently serves customers throughout the oil patch of Louisiana and Texas as well as in Canada, Mexico, and in the Gulf of Mexico. The Company's customer base of over 130 accounts consists of major oil companies, steel mills, material suppliers, drilling companies, tool rental companies, and natural gas storage operators. Due to the nature of its technology, the Company maintains competitive advantages in offshore deep water and other onshore critical projects.

Technical Industries, Inc., a wholly owned subsidiary of Energy & Technology, Corp., manufactures its own proprietary NDT equipment. The Company's patented ultrasonic systems have some of the largest OD and pipe length capabilities in the industry and the deepest penetration capability offered for wall thickness measurement. The Company holds patents on certain exclusive inspection technology that allows oil and gas companies to use their current drill strings and other equipment to reach depths that were previously unreachable. This technology can make wells safer, increase the success rate for critical wells, and greatly reduce the chances of a failure. As the industry moves to ever deeper reserves and makes advances in horizontal drilling, oil and gas wells are becoming more and more expensive and difficult to drill, making this technology more of a necessity.

In the oilfield pipe sales and storage segment, Energy & Technology, Corp utilizes a state-of-the-art web based inventory management system that allows each client to view and track projects during processing, to locate inventory throughout the plant, and access reports, bill of ladings, tally sheets, logs and other required information.

Key Ongoing Operational Processes:

Update ISO Certification

Energy & Technology, Corp. recognizes that quality is every bit as important as price and prompt service. This is even truer of the Company's typical client, who often contracts for services that other companies are not able to provide. In response to our clients requirements, the Company has obtained the latest ISO:9001 certification by Moody's, recognized in the industry as representing the highest quality control available. As the Company's business lines are very synergistic, management feels that it can leverage this dominant position to increase share in the markets in which it competes, and likely more in the critical service arena.

Foreign Trade Zone Status

Energy & Technology, Corp. is exploring the application process to become a subzone of the Harris County Foreign Trade Zone No. 84. This would have a dramatic impact on the Company's ability to sell to overseas markets, and make the Company a far more attractive distribution partner for foreign manufacturers. Management feels that market share could be taken through a successful designation as an FTZ subzone.

Increased Sales and Marketing Effort

Energy & Technology, Corp. has grown over the historical period without an aggressive marketing and sales effort. New business was generated from referrals, technical sessions given to oil and gas and industry related companies, the Company website, and through the use of a marketing company on a limited basis. Currently, there are several employees whose duties are focused on sales, and one marketing and promotional activity director. Management believes revenue can be greatly increased by expanding the Company's sales force.

Diversification

Energy & Technology, Corp. has diligently worked to diversify its business model by adding sales, service, and storage of OCTG and all types of oilfield pipe, as well as equipment leasing and sales. The Company's new threading and repair facility, located on our Houston campus, became operational during the end of the second quarter of 2010. Additional growth will come domestically, and through acquisition and intercompany growth, but management feels that overseas expansion is necessary.

Critical Accounting Policies

The Company has identified the following accounting policies to be the critical accounting policies of the Company:

Revenue Recognition. Revenue for inspection services is recognized upon completion of the services rendered. Revenue for the sales of pipe is recognized when pipe is delivered and the customer takes ownership and assumes the risks of loss, collection of the relevant receivable is probable, persuasive evidence of an arrangement exists, and the sales price is fixed or determinable.

Inventory. Inventory is stated at the lower of cost determined by the specific identification method or market. At June 30, 2010, inventory consisted of drilling pipe available for sale.

Property and Equipment. Property and equipment are stated at cost. Expenditures for property and equipment and items that substantially increase the useful lives of existing assets are capitalized at cost and depreciated. Routine expenditures for repairs and maintenance are expensed as incurred. The cost and related accumulated depreciation of property and equipment disposed of are eliminated from the accounts, and any resulting gain or loss is recognized. Depreciation is provided utilizing the straight-line method over the estimated useful lives of the assets capitalized.

Valuation of Long-Lived Assets. In the event facts and circumstances indicate that carrying amounts of long-lived assets may be impaired, the Company evaluates the recoverability of its long-lived assets using the estimated future undiscounted cash flows associated with the asset compared to the asset's carrying amount to determine if a write-down is required, pursuant to the provisions of SFAS Financial Accounting Standards Board (FASB) ASC 360-10-35. Any impairment loss is measured as the difference between the carrying amount and the fair value of the impaired asset.

Discussion of Changes in Financial Condition from December 31, 2009 to June 30, 2010

At June 30, 2010, total assets amounted to \$12,671,857 compared to \$15,883,341 at December 31, 2009, a decrease of \$3,211,484, or 20.2%. The decrease is primarily due to a decrease in cash of \$262,854, a decrease in accounts receivable of \$638,096, a decrease in inventory of \$1,866,777, and a decrease of property and equipment of \$447,376.

Our liabilities at June 30, 2010, totaled \$6,086,363 compared to \$9,142,014 at December 31, 2009, a decrease of \$3,055,651, or 33.4%. The decrease is primarily due to a decrease in accounts payable of \$3,168,207, and a decrease in deferred taxes of \$159,392, partially offset by an increase in notes payable of \$152,968 and an increase in accrued rent of \$75,000.

Total stockholder's equity decreased from \$6,741,327 at December 31, 2009, to \$6,585,493 at June 30, 2010. This decrease was due our net loss for the six months ended June 30, 2010, partially offset by the issuance of 88,000 shares of common stock.

Cash and Cash Equivalents

Cash and Cash Equivalents totaled \$1,394,476 at June 30, 2010, a decrease of \$262,854 from the balance of \$1,657,330 at December 31, 2009. The decrease in cash and cash equivalents was primarily due to the net operating loss and cash used in operating activities, in the amount of \$457,451, partially offset by our borrowings of debt during the three months ended June 30, 2010.

Inventory

We began purchasing pipe for sale to customers in December, 2007. This was an opportunity for us to expand our services to our customers. During the six months ended June 30, 2010, we were able to return pipe inventory to one of our pipe suppliers. The Company recognized a reduction of inventory, as well as the corresponding payable, of \$1,866,777. It is anticipated that the Company will continue its efforts to expand its sales of pipe, even though the market has contracted substantially due to the current economy.

Property and Equipment

The decrease in property and equipment is primarily due to the depreciation for the six months ended June 30, 2010 of \$457,421. The Company continued construction of a new building and equipment at our Houston, TX facility. This facility, which became operational in the middle of 2010, is being developed in order to add pipe threading services for our customers. The facility was started in 2009 and costs of construction of this facility incurred during the six months ended June 30, 2010 totaled \$185,926. Additionally, certain equipment costing \$267,264 was disposed of during the six months ending June 30, 2010.

Deferred Tax Asset/Income Taxes Payable

Due to the Company's loss for the six months ended June 30, 2010, our deferred tax asset has increased by \$47,014. We have decreased our deferred income taxes by \$159,392 due to the change in book and tax depreciation differences. Accrued state taxes make up the difference in our income tax expense for the six months ended June 30, 2010.

Accounts Payable

Accounts payable at June 30, 2010 totaled \$176,869 compared to \$3,345,076 at December 31, 2009, a decrease of \$3,168,207. The decrease is attributable to our settlement of a lawsuit with a pipe supplier by offsetting accounts receivable invoices that the pipe supplier owed to us. In addition, during the six months ended June 30, 2010, we recognized the return of inventory to another pipe supplier. The Company recognized a reduction of accounts payable of \$1,866,777 as a result of the return of pipe inventory to this supplier.

Discussion of Results of Operations for the Three Months Ended June 30, 2010 compared to the Three Months Ended June 30, 2009

Revenues

Our revenue for the three months ended June 30, 2010, was \$715,407 compared to \$2,237,591, for the three months ended June 30, 2009, a decrease of \$1,522,184, or 68.0%. The decrease is attributable primarily to decreased inspection fees attributable to the current recession.

The following table presents the composition of revenue for the three months ended June 30, 2010 and 2009:

Revenue:	2010		2009		Variance Dollars
	Dollars	Percentage	Dollars	Percentage	
Inspection Fees	\$ 338,497	47.3%	\$1,500,324	67.1%	\$(1,161,827)
Storage Fees	\$ 194,735	27.2%	\$ 294,013	13.1%	\$ (99,278)
Other Income	\$ 182,175	25.5%	\$ 443,254	19.8%	\$ (261,079)
Total Revenue	<u>\$ 715,407</u>	<u>100.0%</u>	<u>\$2,237,591</u>	<u>100.0%</u>	<u>\$(1,522,184)</u>

Cost of Revenue and Gross Profit

Our cost of revenue for the three months ended June 30, 2010, was \$574,941, or 80.4% of revenues, compared to \$1,082,117, or 46.3% of revenues, for the three months ended June 30, 2009. The overall decrease in our cost of revenue is primarily due to our decreased sales. The increase in cost of revenue as a percentage of revenues was due to the fixed costs which are included in operations.

The following table presents the composition of cost of revenue for the three months ended June 30, 2010 and 2009:

Cost of Revenue:	2010		2009		Variance Dollars
	Dollars	Percentage	Dollars	Percentage	
Labor and Related Costs	\$ 123,620	21.5%	\$ 415,648	38.4%	\$(292,028)
Materials and Supplies	12,183	2.1%	36,459	3.4%	(24,276)
Subcontract Labor	161,192	28.0%	196,124	18.1%	(34,932)
Maintenance	4,902	0.9%	83,273	7.7%	(78,371)
Insurance	29,109	5.1%	41,641	3.8%	(12,532)
Depreciation and Amortization	217,502	37.8%	171,676	15.9%	45,826
Other	26,433	4.6%	137,296	12.7%	(110,863)
Total Cost of Revenue	<u>\$ 574,941</u>	<u>100.0%</u>	<u>\$ 1,082,117</u>	<u>100.0%</u>	<u>\$(507,176)</u>

Due to limitations with the pool of qualified individuals, we utilized the services of subcontractors to assist us in providing timely and quality service to our customers. We will continue our efforts to attract employ and retain qualified individuals to serve the needs of our customers.

Operating Expenses

For the three months ended June 30, 2010, our operating expenses totaled \$607,061 as compared to \$619,495 in 2009, representing a decrease of \$12,434, or 2.1%. The largest components of our operating expense for 2010 consists of salaries and wages, rent, professional services, and travel expenses. Salaries and wages for general and administrative personnel was \$242,043 for the three months ended June 30, 2010, compared to \$270,318 for the three months ended June 30, 2009, a decrease of \$28,275, or 10.5%.

Rent expense totaled \$65,774 for the three months ended June 30, 2010, as compared to \$81,794 for the three months ended June 30, 2009, a decrease of \$16,020, or 19.6%. Rent expense for both the three months ended June 30, 2010, and for the three months ended June 30, 2009, pertains primarily to our rental of office space for our headquarters in Lafayette as well as our rental of land and facilities for operating purposes.

Professional services expense increased from \$80,575 for the three months ended June 30, 2009, to \$121,746 for the three months ended June 30, 2010, an increase of \$41,171, or 51.1%. The increase is primarily a result of expenses we incurred throughout the three months ended June 30, 2010 for accounting fees associated with issues related to the annual audit of the Company for the prior year.

Other operating expenses increased from \$24,483 at June 30, 2009 to \$50,550 for the three months ended June 30, 2010, an increase of \$26,067, or 106.5%, and consists primarily of training expenses associated with our attempt to expand services.

Other Income and Expense

Other income and expense consists of investment income, interest expense, and gains and losses from the sale and disposal of assets. Other expense totaled \$10,145 for the three months ended June 30, 2010. Investment income, which consists of interest, dividends, realized gains and losses, and unrealized gains and losses, amounted to a gain of \$3,572 for the three months ended June 30, 2010, compared to income of \$1,985 for the three months ended June 30, 2009. For the three months ended June 30, 2010, we realized a gain of approximately \$23,248 on the sales of assets.

Interest expense totaled \$36,965 for the three months ended June 30, 2010, as compared to \$25,309 for the three months ended June 30, 2009, an increase of \$11,656, or 46.1%. Interest expense pertains primarily to amounts due to affiliates as well as to our notes payable with third parties, and the increase relates to new financing during the fourth quarter 2009 and the second quarter of 2010 which was obtained to finance expansion and threading equipment for the Houston, Texas facility.

Provision for income taxes

For the three months ended June 30, 2010, we reported an income tax benefit of \$173,713 compared to income tax expense of \$200,882 for the three months ended June 30, 2009, a decrease of \$374,595, or 186.4%, which is the result of the loss for the quarter.

Discussion of Results of Operations for the Six months Ended June 30, 2010 compared to the Six months Ended June 30, 2009

Revenues

Our revenue for the six months ended June 30, 2010, was \$1,604,066 compared to \$4,683,663 for the six months ended June 30, 2009, a decrease of \$3,079,597, or 65.8%. During late 2009, we placed in service additional inspection equipment to enable us to meet the overall increased demand we expected for pipe inspection services. In addition to our inspection services, we provide hauling and storage of tubular goods at our Houston facility for customers and suppliers. Due to general economic conditions and to the oil spill in the Gulf of Mexico, the demand for our services decreased substantially during 2010.

The following table presents the composition of revenue for the six months ended June 30, 2010 and 2009:

Revenue:	2010		2009		Variance
	Dollars	Percentage	Dollars	Percentage	Dollars
Inspection Fees	\$ 854,190	53.3%	\$ 3,289,805	70.2%	\$ (2,435,615)
Storage Fees	\$ 499,845	31.2%	\$ 540,801	11.6%	\$ (40,956)
Other Income	\$ 250,031	15.5%	\$ 853,057	18.2%	\$ (603,026)
Total Revenue	\$ 1,604,066	100.0%	\$ 4,683,663	100.0%	\$ (3,079,597)

Cost of Revenue and Gross Profit

Our cost of revenue for the six months ended June 30, 2010, was \$1,244,199, or 77.6% of revenues, compared to \$2,215,132, or 47.3% of revenues, for the six months ended June 30, 2009. The overall decrease in our cost of revenue is due to our decreased inspection services because of the current economy. The decrease in cost of revenue as a percentage of revenues was due to the fixed costs reported in cost of revenues. Labor and related costs decreased by \$492,578, or 62.6%. Subcontract labor costs decreased by \$77,793, or 19.1%. These

decreases are primarily attributable to the overall decrease in volume of inspection services. The increase in depreciation and amortization expense for the six months ended June 30, 2010 compared to the six months ended June 30, 2009 is primarily due to equipment purchased and placed in service in the second half of 2009 and first half of 2010 as the Company continues the expansion of its Houston, Texas facilities.

The following table presents the composition of cost of revenue for the six months ended June 30, 2010 and 2009:

Cost of Revenue:	2010		2009		Variance
	Dollars	Percentage	Dollars	Percentage	Dollars
Labor and Related Costs	\$ 294,872	23.7%	\$ 787,450	35.6%	\$ (492,578)
Materials and Supplies	28,423	2.3%	91,127	4.1%	(62,704)
Subcontract Labor	330,596	26.6%	408,389	18.4%	(77,793)
Maintenance	23,356	1.8%	156,855	7.1%	(133,499)
Insurance	60,595	4.9%	73,865	3.3%	(13,270)
Depreciation and Amortization	445,280	35.8%	347,373	15.7%	97,907
Other	61,077	4.9%	350,073	15.8%	(288,996)
Total Cost of Revenue	<u>\$ 1,244,199</u>	<u>100.0%</u>	<u>\$ 2,215,132</u>	<u>100.0%</u>	<u>\$ (970,933)</u>

Due to limitations with the pool of qualified individuals, we utilized the services of subcontractors to assist us in providing timely and quality service to our customers. We will continue our efforts to attract, employ, and retain qualified individuals to serve the needs of our customers.

Operating Expenses

For the six months ended June 30, 2010, our operating expenses totaled \$1,185,570, as compared to \$1,086,028 in 2009, representing an increase of \$99,542, or 9.2%. The largest component of our operating expenses for 2009 consists of salaries and wages. Professional services, travel expense, and other expenses increased from June 30, 2009 to June 30, 2010. Salaries and wages for general and administrative personnel was \$557,245 for the six months ended June 30, 2010, compared to \$469,014 for the six months ended June 30, 2009, an increase of \$88,231, or 18.8%. During the six months ended June 30, 2010, the Company issued 88,000 shares of common stock valued at \$95,040 as bonuses which accounted for the increase.

Rent expense totaled \$132,496 for the six months ended June 30, 2010, as compared to \$149,196 for the six months ended June 30, 2009, a decrease of \$16,700, or 11.2%. Rent expense for both the six months ended June 30, 2010, and for the six months ended June 30, 2009, pertains primarily to our rental of office space for our headquarters in Lafayette as well as our rental of land and facilities for operating purposes. The decrease is attributable to reduced equipment rentals related to the reduced business during the first half of 2010.

Professional services expense increased from \$150,719 for the six months ended June 30, 2009, to \$196,423 for the six months ended June 30, 2010, an increase of \$45,704, or 30.3%. The increase is primarily a result of expenses we incurred throughout the six months ended June 30, 2010 for consulting services pertaining to training and certification classes for our employees and consulting services for our compliance with ISO standards, as well as an increase in legal and accounting fees associated with the growth of the Company over the past several months.

Other Income and Expense

Other income and expense consists of investment income, gains or losses on sale of assets, and interest expense, respectively. Investment income, which consists of interest, dividends, realized gains and losses, and unrealized gains and losses, amounted to \$8,212 for the six months ended June 30, 2010, compared to \$3,243 for the six months ended June 30, 2009. The increase is due primarily to the additional interest being earned on our invested cash balances.

Interest expense totaled \$72,970 for the six months ended June 30, 2010, as compared to \$49,127 for the six months ended June 30, 2009, an increase of \$23,843, or 48.5%. Interest expense pertains primarily to amounts due to affiliates as well as to our notes payable with third parties, and the increase relates to the financing of new equipment, less the principal payments on those debts and obligations.

During the first quarter of 2010, the Company entered into a settlement with North American Interpipe, Inc. whereby they paid \$1 in exchange for forgiveness of all accounts payable balances in the amount of \$1,298,074. In addition, the Company forgave accounts receivable balances totaling \$919,751 offset by an allowance for doubtful accounts of \$97,000. The net effect of the settlement in addition to reducing accounts payable and accounts receivable resulted in the recognition of \$475,323 in other income.

Provision for income taxes

For the six months ended June 30, 2010, we reported an income tax benefit of \$140,588 compared to income tax expense of \$492,534 for the six months ended June 30, 2009, a decrease of \$633,122, or 128.5%, which is the result of the decreased revenue and pre-tax net income for that period.

Comparative financial information for the six months ended June 30:

Capital Resources and Liquidity

As of June 30, 2010 we had \$1,394,476 in cash and cash equivalents. Our cash outflows have consisted primarily of expenses associated with our operations, and the construction on our Houston facility. These outflows have been offset by the timely inflows of cash from our customers regarding sales that have been made. Currently, we have been able to utilize our relationships with affiliated entities to stabilize our liquidity needs.

We believe we can satisfy our cash requirements for the next twelve months with our current cash and expected revenues. However, completion of our plan of operation is subject to attaining adequate revenue. We cannot assure investors that adequate revenues will be generated. In the absence of our projected revenues, we may be unable to proceed with our plan of operations. Even without adequate revenues within the next twelve months, we still anticipate being able to continue with our present activities, but we may require financing to potentially achieve our growth goals.

In the event we are not successful in reaching our initial revenue targets, additional funds may be required, and we may not be able to proceed with our business plan for the development and marketing of our core services. Should this occur, we would likely seek additional financing to support the continued operation of our business.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is subject to certain market risks, including changes in interest rates and currency exchange rates. The Company does not undertake any specific actions to limit those exposures.

Item 4T. Controls and Procedures

a) *Evaluation of Disclosure Controls.* Our management evaluated the effectiveness of our disclosure controls and procedures as of the end of our second fiscal quarter 2010 pursuant to Rule 13a-15(b) of the Securities and Exchange Act. Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and

forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation, management concluded that our disclosure controls and procedures were effective as of June 30, 2010.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

(b) *Changes in internal control over financial reporting.* There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Our management team will continue to evaluate our internal control over financial reporting in 2010 as we implement our Sarbanes Oxley Act testing.

(c) *Correction of prior reported material weaknesses.* In connection with the assessment described above, management had identified the following control deficiencies that represented material weaknesses as of December 31, 2009 and reported them in the 10K filed at that time. All of these deficiencies have been corrected or addressed as noted below:

- (1) Inadequate segregation of duties over disbursement function. During the fiscal year ended December 31, 2009, one of our accounting personnel who was responsible for the input of invoices into our accounting system and preparation of checks as payments to third parties also had the authority to sign checks. This was a result of the relatively small number of employees in our administrative offices and due to the need for our CEO, our primary check signer, to be out of the office in order to meet with customers, potential customers, vendors, etc.

Management has remediated the issue concerning segregation of duties, and has removed check signing authority from personnel directly involved with the purchasing function

- (2) Inadequate Written Procedures over Inventory. We do not have written policies and procedures regarding transactions involving pipe inventory. Written policies and procedures should be established to address the requisition, receipt and acceptance, and the sale and release from our facility of pipe inventory in order minimize the risk that pipe inventory is accepted that does not meet specifications or that that pipe inventory is released without proper authorization.

Management has remediated the issue concerning inventory procedures by fully implementing its written policy regarding the handling of pipe inventory. A copy of this policy is on file at the locations where needed in Texas and Louisiana

- (3) Lack of an independent audit committee. Currently, we do not have an audit committee consisting of board members independent to the Company.

The Company currently has sufficient resources to establish an audit committee and, al though it is not required an independent audit committee is presently being formed. Furthermore, management has implemented additional internal reviews that it feels are sufficient to insure accurate reporting of the financial statements until such time as the audit committee can be selected.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We were recently served with a motion filed by a major Chinese supplier requesting the court for a Temporary Restraining Order against the Company regarding a contractual dispute; however, the court found that no wrong doing was committed by the Company in order to award the Temporary Restraining Order. The court ruled in favor of the Company and denied the supplier it's motion. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our Company or any of our subsidiaries, threatened against or affecting our Company, our common stock, any of our subsidiaries or of our companies or our subsidiaries' officers or directors in their capacities as such, except as stated above, which an adverse decision could have a material adverse effect.

Item 1A. Risk Factors.

None.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities.

None

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None

Item 6. Exhibits and Reports of Form 8-K.

(a) Exhibits

31.1 Certifications pursuant to Section 302 of Sarbanes Oxley Act of 2002

31.2 Certifications pursuant to Section 302 of Sarbanes Oxley Act of 2002

32.1 Certifications pursuant to Section 906 of Sarbanes Oxley Act of 2002

32.2 Certifications pursuant to Section 906 of Sarbanes Oxley Act of 2002

(b) Reports of Form 8-K

None.

Item 7. Up-dates and Clarifications to prior non-financial information

(a) George Sfeir, CEO age is presently 54 years, not 52 as previously reported in item 10 of Part III to the Company's 2009 Form 10k.

(b) The Company currently carries \$5 million in insurance with a \$6 million cap, not \$4 million as was previously reported.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
